By performing an additional hot rinse at the end of the cycle this removes soap residue that can affect those with sensitive skin. Because clean clothes should sooth, never itch.

Endorsed by Allergy UK this special program removes selected allergens and bacteria from the wash taking care of both your clothes and your family.

Washing Machines are not just about getting clothes clean but also looking after them to give them a longer life. The Bubble Drum is designed to be as kind to your clothes as possible while still getting them brilliantly clean.

Program your dishwasher so that it starts at a time that suits you.

Say goodbye to those strange laundry smells. This high temperature wash will kill bacteria and leave you drum smelling fresh and looking clean

You don't always want to wait for enough dirty clothes to do a full load of laundry, this system detects when the machine is loaded with a half load and reduces program duration and the amount of water used to save energy.
