Making cleaning easier. The built-in Catalytic lining oxidises left over food residue so you can sweep clean.

Created by pro-chefs, 150 built in programs create the ultimate oven to dish experience. We have created this to make your life easier; simply press a program and let the oven do the rest: set time, temperature, and oven function.

By softening the oven dirt with steam, the VapClean function helps take the effort out of cleaning, gently steaming the inside of your oven.

Enables you to take heavy trays out safely and effortlessly from the hot oven.

The oven door closes by itself gently and quietly thanks to a special hinge

The ultimate cooking control gets your meat just the way you like. Simply by using the sensor you can control the core temperature of your meat and make sure it is cooked to perfection.
